

## **Centralized Maintenance Manager, Greens Creek Mine, Admiralty Island, Alaska**

As a member of the Greens Creek Senior Management Team reporting to the General Manager, the Centralized Maintenance Manager will lead the site's mobile and fixed plant maintenance teams to ensure asset availability and performance meet or exceed production requirements while optimizing the total cost of ownership in a safe, efficient and environmentally responsible manner.

### **Essential Functions & Responsibilities of the Position:**

- Lead and improve maintenance department health, safety, and environmental (HSE) performance, including development and implementation of departmental HSE improvement plan, strong presence in the field performing employee safety interactions (SI's), and employee performance management & development.
- Develop and implement a centralized maintenance strategy, encompassing maintenance of Mill, Surface and Underground assets.
- Recruit and retain talent necessary to manage site maintenance. This should include succession planning and personnel development plans.
- Manage and implement department business plans for underground, mill, surface and power plant facilities, including expense budget, capital projects, equipment performance, and improvement targets.
- Implement improved maintenance planning systems and processes, overseeing the cleanup of the existing CMMS, upgrades and ongoing support, ultimately effectively implementing Work Management according to the Greens Creek Asset Management Standard.
- Tracking of all site assets through their life cycle, including practical tactics development and implementation for all major equipment.
- Implement improved reliability processes, including hydrocarbon management, predictive technologies, defect elimination, and 5S (Lean).
- Lead the defect elimination process in concert with the site business improvement process.
- Manage projects to avoid initiative overload and prioritize projects for maximum return.

Other duties may be assigned. Employees must comply with and manage attendance, safety, environmental and HR policies. Successful candidate must demonstrate the following behavioral skills: productive communication, cooperation, productivity, initiative, creativity, and dependability. Ensures compliance with all personnel, safety, health and environmental policies, regulations and laws.

While performing the duties of these jobs, employees may be frequently required to stand, walk or sit for extended periods of time; use hand and fingers to handle or feel; reach with hands and arms; climb or balance; stoop, kneel, crouch, or crawl; regularly required to talk and hear. The employee must regularly lift and/or move up to 60 pounds. Employees may be frequently exposed to underground environments, moving equipment; confined spaces; fumes or airborne particles, toxic or caustic chemicals, outside weather conditions, extreme cold, risk of electrical shock and vibration. The noise level in most work environments is usually moderate. This position may occasionally require work on nights or weekends, but will typically be a four-day-on, three-day-off schedule.
