

## **MILL OPERATIONS SUPERVISOR**

Hecla Limited is seeking a Mill Operations Supervisor for its Base Metal Flotation Plant at the Lucky Friday Mine. This is a full-time, salaried position located in Mullan, Idaho. Successful candidate will be an integral addition to a team of mill operations supervisors. Core responsibilities will include:

- Effective management and coordination of a mill operations crew.
- Work in a team capacity with other supervisors to accomplish all operations objectives in a safe and efficient manner.
- Provide day-to-day leadership of mill personnel.
- Monitor production and respond appropriately in challenging situations and work environments.
- Communicate operational status, observations, and projections on a daily basis with superiors.
- Maintain Hecla's commitment and high standards for safety, environment, integrity, and ethics.

- This position reports to the Mill Superintendent.

- Minimum of 5 years supervisory experience in base metal flotation or 10 years non-supervisory experience in base metal flotation plant processes.
